

EAZY CEMENT REMOVER-C

Product Code:	2055	Packaging:	25L
Product Group:	Descaling	Issue/Date:	1.20 - 31/07/2015

eazy Cement Remover-C is a highly active concentrated liquid based acid designed to effectively remove cement and lime residues as well as lime bound soiling from steel superstructures and all acid resistant surfaces.

The product contains an inhibitor to limit acid attack on metal surfaces.

Application and use

Product can be used for removing cement and lime residues.

Directions for use

For moderate cleaning tasks a solution of 20% of product should be made up by adding product to fresh water (not the reverse) in a plastic container and then applied by brush or spray taking into consideration all the necessary health and safety precautions.

Once satisfactory results are achieved, rinse well with plenty of fresh water.

Repeat if necessary.

IMPORTANT NOTE!!!

All ventilation arrangements must be unobstructed throughout the entire cleaning process. As it is extremely likely that potentially explosive gas will be produced, it is recommended that in enclosed spaces that the atmosphere is tested for the presence of hydrogen at regular intervals.

Product must not be used on tin, aluminium, zinc or galvanised metal surfaces.

Health and Safety

Please refer to the Material Safety Data Sheet and Product Label for specific information.
